Education Expertise	Outreach specialist,Public,Research
Other Expertise	Survey,Volunteer Co-ordination,Research,Fieldwork capabilities,Training/capacity building,Outreach
Organisation Profile	The Maritime Archaeology Trust is a registered charity with 30 years' experience in promoting marine cultural heritage. Based in the South of England we work regionally, nationally and internationally through our programmes that include the investigation of shipwrecks, submerged prehistoric landscapes and the myriad heritage in the intertidal and foreshore zones. Our education, outreach and volunteering programmes make maritime heritage available to all through events, activities, our Discovery Bus and through the Shipwreck Centre and Maritime Museum.
