Organisation Profile	CIE is an internationally orientated organization which strives to inspire and foster co-creative heritage activities and research across the globe. Our work is focused on creating platforms for discussing the multi-layered nature of heritage, and on practical and academic approaches towards community involvement in their heritage. Our Mission is to facilitate multidisciplinary cultural heritage projects, to encourage and develop skills and capacities, and to move beyond the Eurocentric origins of the heritage industry. We aim to serve as a catalyst for cultural heritage development worldwide.
